

Pico ctf challenges

Mod26

There was a ceaser cipher text with key of 13. This was solved by copy pasting the coded text in cyber chef and using ROT13

Recipe	Input
ROT13 <input checked="" type="checkbox"/> Rotate lower case chars <input checked="" type="checkbox"/> Rotate upper case chars <input type="checkbox"/> Rotate numbers Amount: 13	cvpbPGS{arkg_gvzr_V'yy_ge1_2_ebhaqf_bs_ebg13_MAZyqFQj}
